

RISK MANAGEMENT

Risk Management continues to be an integral part of the Manager’s business strategy of delivering sustainable and growing returns. To safeguard and create value for Unitholders, the Manager proactively manages risks and embeds the risk management process as part of the planning and decision making process.

STRONG OVERSIGHT AND GOVERNANCE

The Board of Directors (“Board”) is responsible for determining the overall risk strategy and risk governance, and ensuring that the Manager implements sound risk management and internal control practices. The Board also approves the risk appetite and tolerance statements, which set out the nature and extent of risks to take to achieve the Manager’s business objectives. The Board is assisted by the Audit and Risk Committee (“AC”), which comprises independent directors, whose collective experience and knowledge serve to guide and challenge the Manager, and is supported by the Sponsor’s Risk Management (“RM”) department.

At the Manager, the risk management culture involves both top-down oversight and bottom-up engagement from all employees. This ensures a risk approach that is aligned with the business objectives and strategies of MGCCT, and which is integrated with operational processes for effectiveness and accountability.

The Manager’s Enterprise Risk Management (“ERM”) framework is dynamic and evolves with the business. It provides the Manager with a holistic and consistent process for the identification, assessment, monitoring and reporting of risks. The Sponsor’s RM department works closely with the Manager to review and enhance the

risk management system, with the guidance and direction of the AC and the Board. A control self-assessment (“CSA”) framework further reinforces risk awareness by fostering accountability, control and risk ownership and provides additional assurance to the Manager and the Board that operational risks are being effectively and adequately managed and controlled.

ROBUST MEASUREMENT

The Manager’s risk measurement framework is based on Value-at-Risk (“VaR”), a methodology which measures the volatilities of market and property risk drivers such as rental rates, occupancy rates, capital values, interest rates and foreign exchange rates. It takes into consideration changes

in market environment and asset cash flows as they occur. To complement the VaR methodology, other risks such as refinancing and tenant-related risks are also assessed, monitored and measured as part of the framework where appropriate.

With the VaR methodology, risks are measured consistently across the portfolio, enabling the Manager to quantify the benefits that arise from diversification across the portfolio and to assess risk by asset, risk type and country. Recognising the limitations of any statistically-based system that relies on historical data, MGCCT’s portfolio is subject to stress tests and scenario analysis to ensure that the business remains resilient in the event of unexpected market shocks.

RISK IDENTIFICATION AND ASSESSMENT

The Manager identifies key risks, assesses their likelihood and impact on the business, and establishes corresponding mitigating controls. The information is maintained in a risk register that is reviewed and updated regularly. The key risks identified include but are not limited to:

Strategic Risks

MGCCT’s portfolio is subject to real estate market risks such as rental rate and occupancy volatilities in the countries where it operates, and country specific factors including competition, supply, demand and local regulations. Such risks are quantified, aggregated and monitored for existing assets and prospective acquisitions. Significant risk profile changes or emerging trends are reported for assessment and/or action.

The risks arising from investment activities are managed through a rigorous and disciplined investment approach, particularly in the area of asset evaluation and pricing. All acquisitions are aligned with MGCCT’s investment strategy to enhance returns to Unitholders and improve future income and capital growth. Sensitivity analysis is performed for each acquisition on all key project variables to test the robustness of the assumptions used.

Significant acquisitions are further subject to an independent review by the Sponsor’s RM department. The assessment by the Sponsor’s RM department is included in the investment proposal that is submitted to the Board or Management committee for approval. On receiving approval from the Board or Management

committee, the investment proposals are then submitted to the Trustee, who is the final approving authority for all investment decisions.

The Trustee also monitors the compliance of the Manager’s executed investment transactions with the restrictions and requirements of the Listing Manual of the Singapore Exchange Securities Trading Limited, Monetary Authority of Singapore’s (“MAS”) Property Funds Appendix and the provisions in the Trust Deed.

External Risks

To manage country risks such as economic uncertainties or political turbulence in countries where it operates, the Manager conducts rigorous country and real estate market research and monitors the economic and political developments closely.

Operational Risks

Comprehensive operating, reporting and monitoring guidelines enable the Manager to manage day-to-day activities and mitigate operational risks. To ensure relevance, the Manager regularly reviews its Standard Operating Procedures (“SOPs”) and benchmarks them against industry practices where appropriate. Compliance with SOPs is assessed under the CSA framework and reinforced through training of employees and regular reviews by the Sponsor’s Internal Audit Department.

Loss of key management personnel and identified talents can cause disruptions to the Manager’s business operations and hinder the achievement of its business objectives.

RISK MANAGEMENT

The Manager has put in place succession planning, talent management and competitive compensation and benefits plans to reward and retain performing personnel.

The Manager has a Business Continuity Plan (“BCP”) and crisis communication plan that should enable it to resume operations with minimal disruption and loss in the event of unforeseen catastrophic events such as terrorism and natural disasters. MGCCT’s properties are insured in accordance with industry norms in their respective jurisdictions and benchmarked against those in Singapore.

Credit risks are mitigated from the outset by conducting thorough tenant credit assessment as part of the investment due diligence process prior to an acquisition. For new and sizeable leases, credit assessments of prospective tenants are undertaken prior to signing of lease agreements. On an ongoing basis, tenant credit is closely monitored by the Manager’s asset management team and arrears are managed by the Manager’s Credit Control Committee which meets regularly to review debtor balances. To further mitigate credit risks, security deposits in the form of cash or banker’s guarantees are collected from prospective tenants prior to commencement of leases, where applicable.

Financial Risks

Financial market risks and capital structure are closely monitored and actively managed by the Manager, and reported to the Board on a quarterly basis. At the portfolio level, the risk impact of currency and interest rate volatilities is quantified, monitored and reported quarterly using the VaR methodology. Refinancing risk is also quantified, taking into account the concentration of the loan maturity profile and credit spread volatility.

MGCCT’s floating rate borrowings are hedged by way of interest rate swaps to mitigate interest rate volatility. Where feasible, after taking into account cost, tax and

other relevant considerations, the Manager will borrow in the same currency as the underlying assets to provide some natural hedge. To mitigate foreign exchange risks and to provide investors with a degree of income stability, a large proportion of rental income receivable from overseas assets is hedged using forward contracts and secured in Singapore Dollar terms.

The Manager actively monitors MGCCT’s cash flow position and funding requirements to ensure sufficient liquid reserves to fund operations and meet short-term obligations. The Manager also maintains sufficient financial flexibility and adequate debt headroom for MGCCT to fund future acquisitions. In addition, the Manager monitors and mitigates bank concentration risks by having a well-diversified funding base. The limit on aggregate leverage ratio is observed and monitored to ensure compliance with MAS’s Property Funds Appendix.

Compliance Risks

The Manager is committed to comply with applicable laws and regulations of various jurisdictions in which MGCCT operates. Non-compliance may result in litigation, penalties, fines or revocation of business licenses. The Manager identifies applicable laws and regulatory obligations and embeds compliance with these laws and regulations in day-to-day business processes.

Information Technology (“IT”) Risks

The threat of cyber security attacks continues to be a concern as such attacks become increasingly sophisticated. The Manager has in place comprehensive policies and procedures governing information availability, control and governance, and data security. An IT disaster recovery plan is in place and tested annually to ensure business recovery objectives are met. In addition, network vulnerability assessment and penetration testing are also conducted regularly to check for potential security gaps.

RISK MONITORING AND CONTROL

The Manager has developed internal key risk indicators that serve as an early-warning system by highlighting risks that have escalated beyond agreed tolerance levels. The Manager has also established required actions to be taken when risk thresholds are breached.

Every quarter, the Sponsor’s RM department presents to the Board and AC a comprehensive report, highlighting key risk exposures, portfolio risk profile, results of stress testing scenarios and status of key risk indicators. The Board and AC are also kept abreast of any material changes to MGCCT’s risk profiles and activities.
